

# Skywarn Spotter Training

## National Weather Service Brownsville/Rio Grande Valley

*...Serving the Rio Grande Valley  
and Deep South Texas since 1922*

### YOU ARE INVITED !

**WHAT:** Basic Skywarn Spotter Class

**WHERE:** Harlingen Fire Station #8  
3510 East Grimes  
Harlingen, Texas 78550

**WHEN:** 10 AM to 12 PM Friday, March 20, 2015

**CONTACT:** Bill Snyder (956) 245-4221 certofharlingen@aol.com

Classes normally run about 2 hours, including time for questions and answers and a brief, easy, open-book quiz at the end of the session. At the class, you will receive a Basic Spotters Field Guide. Upon successfully completing the course and quiz, we will send out a welcome letter, a laminated Spotter ID card, a certificate of recognition, and a Skywarn bumper sticker!

You only need to attend one basic Skywarn class to be certified as a SKYWARN spotter. These sessions provide a wonderful opportunity for veteran spotters to refresh their skills, and for new spotters to learn all that is necessary to become skilled and certified to help the National Weather Service in Brownsville succeed in protecting lives and property for residents and visitors of the Rio Grande Valley and Deep South Texas.

As always, classes are free of charge! We hope you find this training session to be informative and entertaining. Hope to see you there!!!

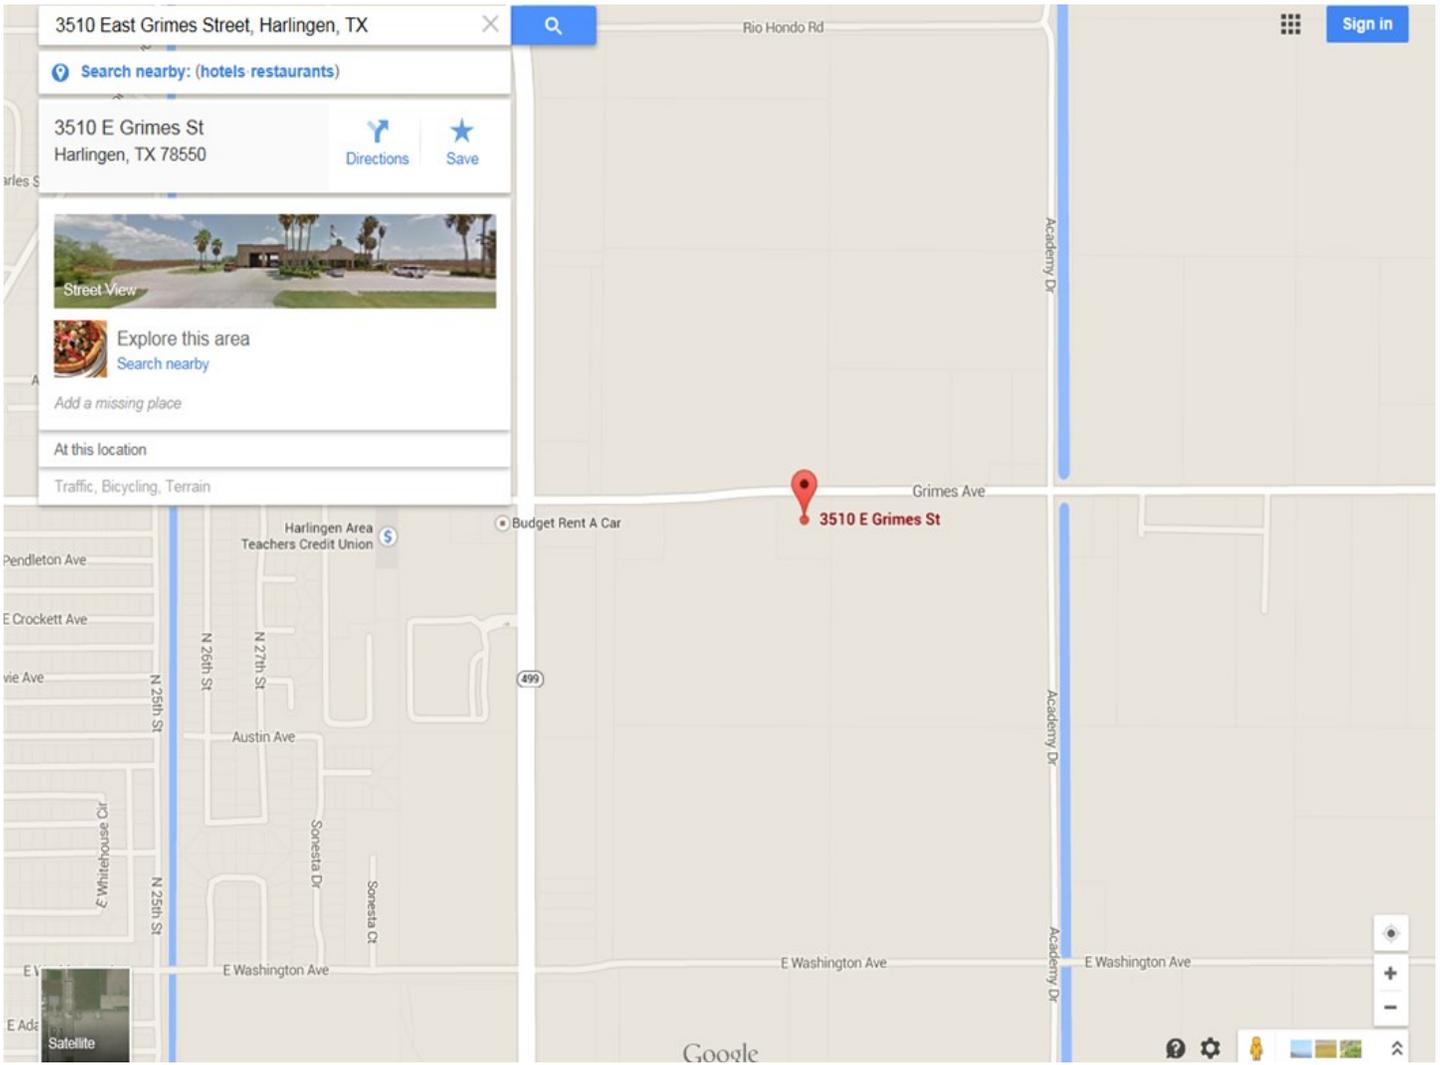

Sincerely,

Blair Scholl - Skywarn Program Coordinator - (956) 504-1432 X 1  
Barry Goldsmith - Warning Coordination Meteorologist—(956) 504-1631 ext. 223  
National Weather Service - Brownsville/Rio Grande Valley, Texas
